HOUSEHOLD HELPS FROM SAT-URDA YEVE. Dear Editor and Social Corner Sis-ers: To mend kid gioves turn them

inside out and paste mending tissue When sewing buttons on a child's fress, sew a tape down the wrong side first, then sew on buttons. You will find the buttons will never tear

away from the goods. A Lump of Soda dissolved in little bot water and added to the blue-ing, will prevent the blue from setting in the clothes and males them white; also add bluing to the water for scald-ing the clothes.

Instead of always folding tablecloths and sheets lengthwise, it is a good plan to fold them sometimes the other way, as they are less likely to wear out if the folds are occasionally changed. Iron the button side of a blouse on

a bath towel, folded four or five times, buttons turned downward; the but-tons sink into the towel, and the button side will look as good as a piece of plain cloth. Wooden dress hangers can be great-

ly improved by screwing two small hooks on the underside for skirts; sew two loops on each skirt and they will no longer be stretched at the hips, or slide on the floor SATURDAY EVE.

Dear Editor and Social Cornerites: Well I declare, "June Bug" was indeed quick in writing up and getting her report of the annual gathering to the Editor in time for its appearance in Saturday's paper. I always knew the and easy to prepare. Stone the ordinary red cherries and chop very fine, reserving all the juice. For each pound of fruit add half a pound of sugar, simmer until a smooth mass is formed, stirring all the time to prevent from burning? Try the seese by placing a small quantity in the refrigerator. When cool it should be quite firm. Slice, serve with whipped cream and white cake.
